Datafusion has been providing a range of services in both Engineering and Management domains to our customers for around 10 years.

We have a wide range of skills inhouse and a number of trusted consultants whom we can call upon to provide specialist advice.

Datafusion has consulted to, and developed solutions for, a wide range of customers including:

- Fugro Survey International
- Thompson Sintra
- BHP
- Getronics Australia
- NSW Roads and Traffic Authority (RTA)
- Advanced Visualisation Systems Inc (AVS)

- Visualisation Systems
